

Installing Google Drive on a Mac

Table of Contents

Download	2
Install	2
Launch Google Drive	3

Download

- Go to https://www.google.com/drive/download/.
- Click the **Download for Mac** button.
- Click Agree and download agree to the terms of service and begin the download.

Install

- The Google Drive installer will be downloaded to your browser's download location, usually your Mac's **Downloads** folder.
- When the download is complete, open the installer. The file is called installgoogledrive.dmg.
- From the installer window that opens, click and drag the Google Drive icon to the **Applications** folder.

Launch Google Drive

• Double click the Google Drive.app icon in your Applications folder.

- Click Open.
- Click the **Get Started** button.
- Enter your email address and click the **Next** button.

• Enter your password and click the Sign In button.

- Click the **Next** button to go through the tips screens.
- Click the **Done** button.
- The installer finishes by adding a menu bar item and creating a Google Drive folder under your home directory. The installer also adds a Google Drive sidebar item to the Finder.
