The purpose of this publication is to provide a resource for those who plan, develop, and deliver cooperative education (secondary and postsecondary) and registered apprenticeship work-site learning. Such work-site learning options are an integral part of the work-based component of Illinois' statewide Education-to-Careers System. This handbook should provide guidance and information to local and regional planners in establishing work-site programs and activities that are required within the work-based component. Revised 1995
