

McDonough County GIS Committee
Friday, 12 May 2006
2:00 pm – 3:00 pm
WIU GIS Center, 203 Tillman Hall

AGENDA

1. **NAVTEQ Request for Data** – NAVTEQ, a leading provider of GIS data to GPS vendors and online mapping sites has begun discussions with us. They are planning a summer update for McDonough County and would like to use our road data for quality control purposes. Our standard price sheet has been sent to them.
2. **Assessor's Office Update** – the Assessor's Office has hired a new GIS technician, Mike Eichenseer. The GIS Center has assisting with the transition.
3. Invitation for Lewis Hopkins to speak on GIS and planning at WIU with community leaders in fall 2006

Possible Dates are Mid-October or third week in September

4. **Review of GIS Center "Priority List"** – the Center sent out requests for updated priorities to all parties. We will review and revise our existing priorities at this meeting.
5. **Farm Acreage News in McDonough County** – a recent article revealed that farm ground is declining in McDonough County.
