Beginning July 18, 2008 all Child & Family Connections will begin to generate authorizations that do not identify a CPT code. The authorization will simply state "Health Consultation". Please use the above CPT codes and bill the most appropriate code for each Health Consultation provided. In addition, you may immediately begin to use the above CPT codes to bill against your existing authorizations, even if those authorizations identify a different CPT code. If you have questions or require additional information please call Jennifer Kepner at 217/782-1981, ext. 5. Thank you for your continued participation as a provider of Early Intervention services.
