

Our next meeting as a steering committee is on April 6 at 2:30.

At that meeting I will give you several updates and we will discuss this draft.

Please note that the Executive Writing Team is still working on this draft.

Agenda

1. The formatting still needs to be fixed and so just try to ignore it when you are reviewing the document;
2. A main feature of this revision will be the use of hyperlinks in the document to connect it directly to other activities and supplemental plans at the institution. There is only one hyperlink in the document so far-- but please see it as an example of what will come;
3. I ask that you give the most focus to the executive summary of the document (the first five pages);
4. Please note that Goal 3, actions 4 and 5 still need to be developed;
5. Please send me any comments, edits, etc.
