WESTERN  
ILLINOIS  
UNIVERSITY

QUAD CITIES

Western Illinois University-Quad Cities

*(The steel for the atrium area on the north side of Building One is in place. This two-story area will be a gathering place for students and will face the Mississippi River.)*

# Riverfront construction completed during the past 30 days

Construction completed in the last 30 days includes installation of :

- tube steel at 1st floor
- exterior and interior wall framing at 1st floor
- 1st floor sheathing
- brick and concrete block for the building exterior
- precast concrete walls
- an initial course of asphalt for the parking lot
- additional concrete grade beams for west building addition
- drywall at 2nd floor
- steel columns/beams/joists
- door frames and borrow lights at 1st floor
- mechanical/electrical/plum bing rough-ins at 1st floor.

\*\*\*\*\*

*(The future River Tech Boulevard will run along the southern perimeter of the Riverfront Campus. The road will provide additional access to the campus area. The City of Moline obtained federal funding to make the road way available.)*

# Construction activities in the next 30 days

Construction activities slated for the next 30 days include:

- continue cold weather masonry installation
- cold weather slab installation at west and north building additions

- continue structural steel installation
- first floor exterior wall and insulation installation
- light pole installation
- continue mechanical/electrical/plumbing service installations
- application of fluid applied air barrier
- installation of geothermal well fields will also continue.

## *Holiday Greetings!*

The Quad Cities community has warmly welcomed and supported our work to bring the Riverfront Campus to our region. Our sincere and heartfelt thanks go to all the generous individuals, corporations, foundations, civic organizations, and units of government whose support has made this project possible.

We look forward to celebrating with all of you when we open the campus in 2011!
