

E.G.O. Meeting Minutes  
Date: February 18, 2020

Present:

Dr. Di Carmine

Co-presidents: Maureen and Meghan

Treasurer: Kendrick

This was the first meeting with our new EGO committee. Katya was unable to make it, so I (Meghan) took the following notes:

We began the meeting by going over the expectations of the EGO committee. We discussed our roles and what the first steps will be for organizing the EGO conference.

Dr. Di Carmine told us we need to:

- Reach out to potential keynote speakers
- Come up with a theme
- Create a call for papers

In the meeting, we browsed through UPenn's call for papers page to get an idea of what we should write.

We also began brainstorming potential themes for the conference. We decided to explore ideas of (re)iteration: invention, interpretation, and inspiration. We are considering looking at "common threads" as a theme. Because we want to reach out to Marcus Boon of University of Toronto, we would like to have a theme that tracks with his ideas on "copying."

At the end of the meeting, we determined that we should come up with a more concrete draft of our theme and call for papers before the next meeting.
