

DuPont Pioneer in Princeton, Illinois is seeking summer help for the 2014 growing season. This is a great opportunity for students who reside near Prophetstown, Rock Falls, Princeton, Amboy, Mendota, or anywhere in between that wish to build their experience in the agricultural industry.

Field Safety Technician

At DuPont Pioneer, safety is our number one priority. In this role, you will help monitor detasseling crews and perform safety audits. Because of the safety emphasis of this job, ideal candidates will be working toward a safety related degree and/or have CPR and first aid training.

Field Area Assistant

We strive to produce a quality product. As a field area assistant, your role is to make sure that the detasseling activities are done correctly. Field counts, machine movement, and minor supervision duties are just some of the roles associated with this job.

Field Scout

All season long, corn battles with the elements. As a field scout, you will be at the forefront of the fight by monitoring pest and disease pressure. Job roles include scouting fields, recording observations in reports, managing pest traps, and maintaining spray sheet records.

Requirements for all positions:

Must be 18 years or older
Preferably working toward a degree in related field
Ability to work overtime hours in outdoor conditions
Valid Driver's License, insurance, and reliable vehicle
