

A message from our Partner at the Illinois Early Intervention Technical Assistance and Monitoring Program - 03/27/20

Due to the COVID-19 pandemic, the Illinois Department of Human Services Bureau of Early Intervention and Early Intervention Technical Assistance and Monitoring Program (EITAM) will continue to provide Technical Assistance to Providers, Child and Family Connections personnel, and EI Stakeholders. We will continue to work with EI Providers with mail in or remote monitoring reviews if they are capable and able to participate. EI Providers that face any hardships and are unable to participate will be granted extensions to assist in the review process or may request their review be postponed to a later date. If you are contacted for a review, please communicate with the staff of EITAM and we will work with you to either complete, extend or postpone the review through this COVID-19 pandemic period of time.

EITAM staff are working remotely but are available to receive calls or emails should any stakeholder need technical assistance support or policy clarification. We recommend everyone stay up-to-date with any information by visiting the Provider Connections website. If you need any monitoring assistance please visit our website at www.earlyinterventionmonitoring.org. General questions can be sent to info@vanderweelegroup.com. Stay Well!
