## CMHC Practicum and Internship Site Index

This is an index of approved School Counseling sites for Practicum and Internship Students. Students may be placed in a site outside of those listed once the site has gone through the approval process. It is important to remember that this index should be used as a guide for students and faculty and may not reflect recent changes in phone numbers or contact people. Therefore, **this index may not be accurate.** It is recommended that the student research the desired site other ways (e.g., internet or phonebook) in order to ensure correct contact information.

More importantly, **students must not contact sites without being given permission by the Clinical Coordinator.** The placements are getting acclimated to students currently enrolled in Internship and do not appreciate being contacted by a prospective student before they are ready.

As such, this guide is to ONLY be used by students the semester prior to practicum, following permission by the Clinical Coordinator (Dr. Nikels) to proceed with applications.

No applications or inquiries are to potential sites are to occur before **March 1, 2015.**

Please send any corrections noticed to Dr. Nikels and/or Diane Heisner.

## CONTENTS
