

Post-Baccalaureate Certificate in Instructional Design and Technology

Whether an individual is seeking to advance in his or her organization, start a business or simply upgrade his or her skills in a current position, a Post-Baccalaureate Certificate in Instructional Design and Technology (IDT) from Western Illinois University can play an important role in helping achieve professional goals. Almost all the post-baccalaureate certificate programs have just five courses, so students can finish in two years or less. Candidates can tailor their coursework to their specific career goals through six customized study options. Each option provides candidates with the opportunity to master specialized technology and skills so they can adapt and excel in an increasingly complex and technological work environment.

Admissions

The Instructional Design and Technology program at Western Illinois University requires that all applicants meet the guidelines established by Western's School of Graduate Studies. Applicants for admission to post-baccalaureate certificate programs must hold a bachelor's degree from an institution that is accredited by the appropriate regional accrediting agency. Application for admission must be made through forms obtained from the School of Graduate Studies online at wiu.edu/grad. Applicants must request the registrar of the college or university granting their highest degree to send a statement of degree or official transcript showing the degree and date it was conferred directly to the WIU School of Graduate Studies.

The work for the certificate must be completed within **three calendar years**. A cumulative 3.0 grade point average for all coursework is required for completion of the certificate, with no more than 3 SH of a "C" grade. No course with a grade of "D" or less may be used to satisfy certificate requirements. Upon completion of certificate requirements, the candidate will file an Application for Certificate Completion form with the graduate school.

Financial Aid

The WIU Financial Aid office assists eligible candidates in meeting their education-related expenses while attending the University. Assistance is provided through loans, scholarships and student employment. The Financial Aid office is open Monday-Friday, 8 a.m.-4:30 p.m. To schedule an appointment, call (309) 298-2446.

Faculty

Faculty are knowledgeable, professional and committed to providing students with the best education available. Faculty members have extensive experience in their fields, and have gained national and international reputations. All faculty actively engage in ongoing research and field work, which means students will learn the most current, real-world solutions, techniques and applications.

Facilities

The IDT graduate program, located in Knoblauch Hall, has some of the most advanced instructional technologies available in the Midwest. IDT facilities include an advanced computer lab complex, interactive multimedia and CD-ROM/DVD production lab, electronic classrooms, video/audio production and editing facilities, as well as Internet-based two-way video and interactivity.

Online Learning

The Post-Baccalaureate Certificate program is designed to fit the busy lifestyle of the working professional. Classes are offered either online, in the evening or in a weekend format. The online format allows candidates to take the classes when they have the time to fit them into their schedule; students are able to access their coursework day and night.

Total: 18 SH

*Weekend Academy (Campus)

**Online/Weekend Academy (Campus); Format alternates offering between online and weekend courses.

Course descriptions may be viewed at wiu.edu/idt.

IDT at Western Illinois University

The IDT program offers six post-baccalaureate certificate programs that combine up-to-date knowledge with practical applications and individualized experiences. The aim of the program is to facilitate professional growth in technology and related abilities in problem-solving and systematic planning. Transfer credit is not accepted into certificate programs. Courses taken while working on this certificate can be counted as electives toward a Master of Science degree in IDT. Candidates who wish to pursue this option while working on the certificate should state such intention so they can receive proper advising. Successful completion of the certificate program does not guarantee admission into the IDT master's degree program.
