

# Integrated Baccalaureate Degree in Women's Studies (BA) and Master of Liberal Arts and Sciences (MLAS)

*The Integrated Bachelor of Arts in Women's Studies and Master of Liberal Arts and Sciences program at Western Illinois University provides an opportunity for outstanding undergraduate women's studies majors to complete both the BA in Women's Studies and Master of Liberal Arts and Sciences (MLAS) degrees in five years. This program gives women's studies majors with a multidisciplinary orientation an opportunity to explore selected philosophical topics more thoroughly and to develop an appreciation and understanding of the methodologies of a variety of disciplines in the humanities, social sciences, natural sciences and mathematics as they pursue graduate level study.*

## Admission Requirements

Undergraduate Women's Studies students may apply for admission into the Integrated Baccalaureate and Master's Degree program after completing 60 SH of undergraduate coursework. Application for admission to the integrated BA Women's Studies/MLAS degree program requires a cumulative grade point average of 3.25 or higher as well as a major GPA of at least 3.25.

To apply to the integrated program, students are to submit the following documents to the WIU School of Graduate Studies:

- A School of Graduate Studies application form (available at [wiu.edu/grad](http://wiu.edu/grad))
- Official transcripts from each college or university previously attended
- A one- to two-page personal statement that explains their larger personal career goals and how the MLAS degree will further those objectives
- An academic paper of at least 5 to 10 pages that demonstrates an ability to develop a thesis and make a sustained, well-researched argument
- Three confidential letters of recommendation

## Benefits of an Integrated Degree

- **Start graduate courses earlier** – Upon acceptance, integrated degree students may take up to three graduate courses that can count toward both undergraduate and MLAS degrees (called "bridge" courses). As a result, integrated degree students get a jump start on their graduate degree and eventual career.
- **Save money** – Integrated degree students have 9 SH fewer of tuition/fee expenses, and they can lock in the tuition rate in the Graduate

Catalog from when they first continually enroll at WIU.

- **Acquire a unique credential** – Integrated degree students acquire concrete, practical language skills while developing higher order analytical skills as they work across disciplines. This broad range of skills and flexibility is in demand by employers.

## Integrated Degree Requirements

Students in the BA Women's Studies/MLAS integrated program may use up to 9 SH of the following bridge courses in both the BA Women's Studies and the MLAS degrees:

### Distinctive Features

The BA Women’s Studies/MLAS integrated program has many distinctive features and opportunities for its students:

- **Personalized Education** – The women’s studies faculty’s strong commitment to undergraduate teaching and student learning is evidenced by its small class sizes, which make it possible for students to participate actively in class discussions and for faculty to get to know students on an individual basis. Faculty members are accessible

to students, and individualized advising and career counseling are provided by the department.

- **Research and Scholarly Activities** – There are many activities in which students in the MLAS program can participate: annual departmental conferences; WIU Graduate Research Conference; departmental, college, and University speaker events; professionalization workshops; and graduate organizations and clubs. LAS students are active in the LAS Graduate Student Organization (LASGO) in Macomb and the LAS Student Organization (LASSO) in the Quad Cities. Students also participate in the Women’s Studies Student Association.
- **Flexible Program Structure** – For their exit option, students can write a thesis, develop an applied project or pursue an internship. Through a close mentoring relationship with a faculty director, individuals choose and tailor their exit options to meet their personal or professional goals, including preparation for further graduate work, a new career or advancement within a current career.

### Career Opportunities

Most graduates pursue careers in social services, industries, communications fields, advertising, journalism and nonprofit agencies. The integrated program is one that prepares students for any field in which critical thinking skills and knowledge of traditionally underrepresented groups are important.

*“The Liberal Arts and Sciences integrated program has provided me with many opportunities. I enjoyed taking graduate courses as an undergraduate because the courses were challenging and rewarding. Also, the dual credits and time length for the program were appealing because it allowed me to not only challenge myself as a student but also consider my financial needs. Overall, this program has allowed me to customize my degree without financially straining myself.”*
