We keep statistics on books that are used. Please do not reshelve.

Federal publications are shelved by executive office, agency, or congressional committee, instead of by subject. They are classified using the Superintendent of Documents call number system (SuDoc for short), an alphanumeric system where all numbers are whole numbers (not decimals!) separated by punctuation, including periods, slashes, dashes, and always a colon.

Examples:
- ILLINOIS 631.8 FARM
- ILLINOIS 331.252 I29r 1989

Illinois Documents are arranged using an adapted Dewey decimal alphanumeric system. Numbers are decimals.

Examples:
- D 301.82/7:K 96
- Y 4.ED 8/1:104-21
- Y 3.AT 7:22/WASH-1184

If you need help finding materials in these collections, you can ask at the 4th floor Government, Legal, Spatial, and Data Services Office (weekdays), the Reference Desk or Access Services, both located on Level 2.
