Looking for a book?

Compare the call number you're looking for against the end labels on the shelves. Find where the range is that contains your book. Proceed down the range to locate the book.

In the LC SYSTEM the first line represents subject area and single letters come before double letters. For example, J comes before JK. Next compare the numbers, 199 comes before 200. Then compare the alpha-numeric combination, example: JK199.44 E85 comes before JK199.44 F85.

If you can't find the book come to the Access Services desk for help.
