

# Teaching with Technology Seminar

## Using the Smartboard and TI-Smartview in Math 100 and Math 128

### DATE/TIME:

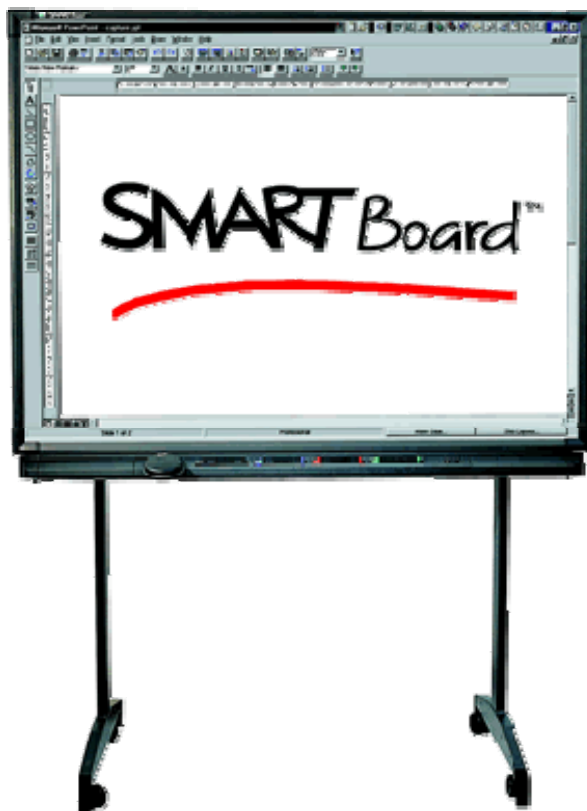

Tuesday,  
February 24,  
2009 at 4:00 p.m.

### PLACE:

The seminar will  
take place in 214  
Morgan Hall.

### PRESENTER:

Ms. Candace  
Rosene,  
Department of  
Mathematics,  
Western Illinois  
University.

I will demonstrate some of the basic features of the TI-Smartview emulator software which I am using every day in Math 100, as well as give some examples of how I have incorporated the Smartboard into Math 128 lectures. There will be plenty of time for questions and for attendees to try out the technology.

Next Tuesday's seminar will go into greater detail, and provide time for participants to try out the technology themselves, on how to use the Mimio (March 3).
