2018 Goals
Enhanced Culture for Teaching & Learning

- Plan/strategize to create stronger collections and integration between library instruction and departmental courses

- Continue to expand digital collections

- Promote integration of technology to improve the quality of reference, course-based and for-credit instruction and library programming
Fiscal Responsibility and Accountability

• Move forward with well-planned library development to raise funds for the library

• Host events to obtain external funds

• Improve procedures and campus-wide compliance of records management
Enhance Academic Affairs Role in Enrollment Management & Student Services

• Continue working with other campus offices on diversity initiatives such as women’s history and African American history

• Continue to provide bibliographic instruction

• Encourage participation in teaching UNIV 100 courses
Technolog\textit{y Goals & Objectives}

• Improve existing wired and wireless network infrastructure

• Secure permanent funding for sustainable 4-year replacement cycle of technology

• Promote reduction of paper waste

• Based on recommendation by WIU Open Access Task Force, explore implementing Institutional Repository
The WIU Open Access Task Force recommended that the university establish a digital repository. This would make it easier for faculty and staff to make their research openly accessible in order to comply with Illinois Public Act 098-0285, the Open Access to Research Articles Act. An institutional repository would also allow undergraduate and graduate research to be available online. Archival records could also be placed in the repository. It would bring together the research, administrative output, historical archives, conferences/exhibits, historical images, and special collections of the University. These would all be combined under one umbrella, preserving and providing access to these materials.
New Funding Requests

• Money for Books
  • The library is requesting a one time expenditure of $100,000 to buy books for the collection. There has been no book budget since 2013. We need to purchase more up-to-date books in many fields.
“Whatever the cost of our libraries, the price is cheap compared to that of an ignorant nation.”
— Walter Cronkite
