5:03 Guest Speaker

Deb Kepple - Maros informs SGA that WIU QC is a designated party zone for the QC Marathon. She would like all students groups to participate through volunteering or creating a booth. Senators will go back to their student groups and let her know by September 4, 2018.

Deb also informs SGA that there will be a QC Campus Retention committee that will address all aspects of the student experience from application to graduation. The committee would like student involvement in a full year term that will require the student to meet with the committee once a month. Jesse Ramos will get with students that he feels are fit for this position and nominate them for consideration.

5:14 National Society of Leadership and Success

WIU QC received the opportunity to be a part of this program with other schools/leaders around the country. This program will allow for students to develop leadership skills and make meaningful business connections. The fee to apply is \$75 per student. For more information students were instructed to follow links from societyofleadership.org.

5:21 Student Org Updates

Each student organization conducted an introduction and gave a brief update on upcoming events. Senators will bring more to the table once their clubs have met for the first time this year.
