Applied Science Degrees

If you are working towards completing an Associate of Applied Science Degree, there will be additional general education courses that you will be required to take upon transferring to Western Illinois University

Not earning an AA or AS? Here's how to know if courses transfer:

Western Illinois University is a participant in the Illinois Articulation Initiative (IAI), a statewide agreement that allows transfer of the completed Illinois General Education Core Curriculum between participating institutions. Completion of the transferable General Education Core Curriculum at any participating college or university in Illinois assures transferring students that lower-division general education requirements for a bachelor's degree has been satisfied.

ALWAYS consult with your community college advisor for assistance on Associate Degree Requirements

Guide for the 2015/2016 Academic Year

Required Courses by Major

Courses listed below are required to complete your Bachelor degree at Western Illinois University. It is recommended that students complete these courses at their community college prior to transferring to WIU. Courses listed may fulfill general education or elective requirements. Please consult your academic advisor for more specific information on how these courses apply towards your Associate degree. **For requirements for other majors please contact WIU admissions.**
