Re: June 2009 Strategic Plan Update

This month's *Strategic Plan Update* provides you with a status report on the Electronic Classroom Upgrade (ECU) Program. As you know, *Higher Values in Higher Education 2008-2018* contains the priority to "Maintain the multiyear electronic classroom upgrade program for general instructional and two-way audio-video (CODEC) classrooms on both campuses" as part of the goal to enrich academic excellence.

The ECU program was initiated in summer 2008, with the understanding that general instructional classrooms are those classrooms that can be used for instruction by any college or department after the "home" department and college is given first opportunity for scheduling the room.

Through combined efforts of staff from Physical Plant, University Technology, Quad Cities Technology, and in collaboration with end-users on both campuses, 23 of the University's 127 general instructional electronic classrooms (18.1%) have been upgraded and another 17 (13.4%) are either in process or planned to be completed by the end of calendar year 2009. Adherence to this schedule will result in approximately one-third of the University's electronic classrooms being updated within two years of establishing the program.

<u>Building/Room</u>	<u>Campus/College</u>	<u>Status</u>

Waggoner 54	Arts and Sciences	Planned

Higher Values in Higher Education also commits the University to supporting strong learning environments by engaging in the Faculty Computer Upgrade Program, Furniture Upgrade Program, permanent improvements, and campus sustainability. Status reports on these priorities will be topics in future Strategic Plan Updates.

If you have any questions about or feedback regarding the materials presented in this month's *Strategic Plan Update* and/or regarding the continued successful implementation of *Higher Values in Higher Education*, please contact me.
