Western Illinois University maintains a strong sense of community and historic commitments to student access, affordability, and success. Within the last two years, we have been recognized as one of the “Best in the Midwest Colleges” and as one of the “Best Value” colleges in the U.S. by the Princeton Review, as well as one of just 21 public universities ranked as a “Tier 1 Midwestern Masters Granting Institution” by U.S. News & World Report.

Western Illinois University is also accredited by the Higher Learning Commission-North Central Association of Colleges and Schools. The University’s teacher certification programs are accredited by the National Council for the Accreditation of Teacher Education and approved by the Illinois State Board of Higher Education. The University also maintains a strong commitment to discipline-based accreditation and certification, where appropriate to the discipline. In academic year 2007-2008, Western Illinois University maintained accreditation/certification with 11 agencies ranging from the American Speech-Language-Hearing Association to the Association to Advance Collegiate Schools of Business.

These external recognitions and peer-based accreditations showcase our high academic standards, quality instruction, proven opportunities for job and graduate school placement, outstanding academic and residential facilities, exciting extracurricular activities, and institutional commitments to sustainability and affordability.

These recognitions also reinforce the unique mission and niche of Western Illinois University in the state’s system of public higher education. Keeping focused on our vision, mission, and values is critical to continued student success and our progress, growth, and contributions to the state and beyond. Western Illinois University, along with all other 11 Illinois public universities, is currently being challenged by a declining number of Illinois high school graduates; decreasing state support (appropriations) for higher education; as well as increasing costs, maintenance, technological, infrastructure, and accountability needs.

Through continued successful implementation of Higher Values in Higher Education, the institutional planning, resource allocation, and accountability reporting process established in academic year 2002-2003, we will continue to build upon our strengths and take advantage of opportunities. Western Illinois University will continue to prepare our students and graduates to lead in the global community. We will do so in a manner that is distinctive and nationally recognized for successful implementation of our vision, mission, and values.

I’m pleased to present the University’s revised Higher Values in Higher Education Strategic Plan, which will guide us from 2008–2018.

Sincerely,

Al Goldfarb
President

We are committed to an academic environment that encourages lifelong development as learners, scholars, teachers, and mentors.

With personal growth comes an environment and interpersonal dynamics that celebrate diversity, support internationalization of the curriculum, and encourage plurality of thought and perspective.

SOCIAL RESPONSIBILITY
Western Illinois University is committed to equity, social justice, and diversity, and will maintain the highest standards of integrity in our work with others. We will serve as a resource for and stimulus to economic, educational, cultural, environmental, and community development in our region and well beyond it.
The Structure for Implementing
Higher Values in Higher Education 2008–2018

Higher Values in Higher Education 2008–2018 represents a 10-year, long-term vision for Western Illinois University. The Plan contains six goals that reflect the mission (daily operations) of the University. The first goal identifies strategies to recruit high-achieving, motivated, and diverse students, faculty, and staff to the two campuses of Western Illinois University. The next four goals operationally define strategies to advance the core values of the University as we successfully achieve our mission and vision (aspirations). The last goal discusses the Plan’s accountability reporting structures.

University progress on implementing the goals and actions of the Plan will be made in the following manner:

1. An institutional “dashboard” or Strategic Plan outcome measures (e.g., retention and graduation rates) will be annually updated to determine successful implementation of the University’s Vision Statement (national leadership in Educational Quality, Opportunity, and Affordability).

2. The University’s performance on the dashboard indicators will be compared to peer institutions.

3. Monthly Strategic Plan Updates to the Western Illinois University Board of Trustees, campus, and external communities will continue to discuss implementation of Higher Values in Higher Education 2008–2018.

4. Annual Strategic Plan Updates will summarize institutional plans, progress, and next steps for the Plan’s goals and actions that are summarized below.

*The two campuses of Western Illinois University are organized around the president, four vice presidential areas: Academic Affairs, Administrative Services, Advancement and Public Services, and Student Services; four academic colleges; and University Libraries. Governance structures include the Civil Service Employees Council, Council of Administrative Personnel, Faculty Senate, Student Government Association (Macomb and Quad Cities), Quad Cities Faculty Council, college governance structures, and the Graduate Council.
Western Illinois University is committed to becoming the destination of choice for students, faculty, and staff. We specifically seek those individuals who value academic excellence and are committed to successfully achieving their educational goals. Therefore, we will actively compete for and contribute to the ongoing development of our most valuable resource: the students, faculty, and staff of the University—and this includes resource allocation to support our strong academic programs, with educational and co-curricular opportunities that reinforce learning and socialization inside and outside of the classroom.

Therefore, strong fiscal commitments are necessary to achieve our ideals. Successful student recruitment will become increasingly competitive in the years ahead due to demographic and economic trends. Within Illinois, this includes a projected decrease in the number of high school graduates; the high percentage of interstate migration by college bound seniors; the continued relocation of business, industry, and families to other areas of the country; and continued concerns of college costs.

With focused recruitment and retention, supported by resources to support these efforts and controlled growth in our comprehensive educational environment, Western Illinois University will become the destination of choice for students, faculty, and staff.

DEMONSTRATE ACCOUNTABILITY

G O A L N O . 6

Demonstrating continued advancement of the values, priorities, and actions of Higher Values in Higher Education is a shared responsibility of all members of the campus community. The strength, vitality, and credibility of institutional planning processes are predicated on commitments to action, strong use of shared governance, allocation of resources, evaluation and adjustment, and objective accountability reporting. Equally important is external validation. Following precedent established through initial implementation of Higher Values in Higher Education, Western Illinois University will demonstrate its commitments to accountability and advancement of this Plan.
**The Summary**

Western Illinois University has a strong history of advancing strategic planning goals and priorities. Of the original 140 Higher Values in Higher Education action items, 122 (87.1 percent) are either accomplished, maintained, or currently in progress. Conversely, only 12.9 percent of our original actions have not been addressed. The campus, Board of Trustees, alumni, and our host communities have worked together to advance the University’s priorities and goals.

With these successes, this strategic plan review/update was conducted five years after the campus community originally developed and implemented its 10-year vision for the University in academic year 2002-2003. Our initial strategic plan clearly articulated the University’s values (which remain unchanged in this review/update), an ambitious action agenda, and a commitment to review/update the Strategic Plan within five years of implementation.

Following our charge, and recognizing the changing dynamics of internal and external environments, this strategic plan review/update completed by the Western Illinois University campus community, members of our host communities, and the Alumni Association focused on the strengths of the University, our opportunities, and the continued advancement of planning. It also meant reviewing the original Higher Values in Higher Education to determine if items should continue in this edition, or if items should be eliminated because the action was accomplished, infused within existing structures and processes, or external circumstances had changed and the item was no longer a priority.

The end result of this review is Higher Values in Higher Education 2008–2018. Through this Strategic Plan, we have specifically stated how we will focus recruitment and advance our core values of academic excellence, educational opportunity, personal growth, and social responsibility. Furthermore, we believe by enacting our values and successfully implementing the goals and actions in Higher Values in Higher Education, we will lead our peers in educational quality, opportunity, and affordability, and represent the destination of choice among students, faculty, and staff.
Founded in 1899, the Western Illinois State Normal School was established to address teacher preparation in the state’s grammar schools. The faculty and students of Western were eager to meet this need, and the institution soon became known for its well-rounded, deeply committed graduates, a tradition that continues.

As the years passed and the name was changed to Western Illinois State Teachers College in 1921 and then to Western Illinois University in 1957, the institution’s mission continually broadened to include academic majors that prepared high school teachers; the state’s earliest and most successful extension program; a multi-faceted graduate school; a liberal arts program; and, eventually, distinguished colleges devoted to Arts and Sciences, Business and Technology, Education and Human Services, and Fine Arts and Communication.

Throughout time, and most recently as Western celebrated 50 years as a University during academic year 2007-2008, we have earned and maintained a reputation for expanding public access to affordable, high quality degree programs and fostering student involvement in university activities.

We are now a leading university with a residential campus in Macomb, a commuter campus in the Quad Cities, and extension and distance learning programs. With an outstanding, diverse faculty and staff committed to multicultural and international education, Western Illinois University offers undergraduate and graduate programs of study to more than 13,300 students from Illinois, across the nation, and around the world.
