

PROTECT THE 'NECKS

A Pledge to Stop the Spread of COVID-19

As the effects of this pandemic impact our friends, families,
and world, we must work to protect the health and safety
of every member of our campus community.

We will protect ourselves.

We will protect our Leatherneck community.

We will get through this together. We are Leathernecks!

**Western Illinois
University**

Protect the 'Necks Pledge

Being a part of the Leatherneck community during such extraordinary times means we are counting on each other to protect ourselves, our campus, and our community, especially those that may be more vulnerable. It is with our fighting Leatherneck spirit that we ask you to pledge to stop the spread of COVID-19.

I Pledge To:

Protect Myself

- Monitor myself daily for the symptoms of COVID-19, which include a fever of greater than 100.4 °F (38.0 °C) or higher, difficulty breathing, chills, dry cough, sore throat, fatigue, muscle or body aches, and loss of taste or smell
- Report any of the above symptoms to a medical professional
- Sanitize my hands with soap and water or hand sanitizer often
- Keep myself apprised of updates and procedural changes on campus related to COVID-19
- Thoughtfully consider being vaccinated to prevent influenza this fall. (Symptoms of influenza and COVID-19 are very similar. This makes it more difficult, time consuming, and expensive for medical professionals to make the correct diagnosis if I become ill.)

Protect My Leatherneck Community

- Stay home if I feel ill or if I have been exposed to someone who tested positive for COVID-19
- Wear an appropriate mask or face covering as directed by the University
- Maintain physical distance protocols, especially in classroom settings and dining and residence halls
- Assist to keep shared common spaces and workstations clean
- Participate in testing, quarantine/isolation processes, and contact tracing if instructed to do so by the University, McDonough or Rock Island County Public Health Department, or the Illinois Department of Public Health
- Limit non-essential travel in order to protect both my Leatherneck family and my family at home
- Carefully observe instructional signs, designated entrances/exits, and follow directions as stated by the University
- Be positive, attentive and helpful to anyone around who may be in need of support

**We know that this year will look very different than those in the past.
We will get through this together. We are Leathernecks!**
