Welcome to the NMRA InfoPak #1.

This package is designed to provide you with facts and information about model railroading at your fingertips. It contains updated Data Sheets with loads of model railroad and prototype information, the current Standards and Recommended Practices are also included as well as Modular Standards and Recommended Practices. The Glossary of Terms will help you interpret model railroad jargon. The Achievement Program section contains all the Regulations, Forms and Judging Guidelines that you will need to participate in the program. The DCC Handbook will guide you through the latest in electronic command control for your model railroad.
